

28th December 2020

To Châtel residents

Object : CCPEVA will be in charge of water supply and distribution from 1st January 2021.

Dear Sir or Madam,

From the 1st of January 2021, the Communauté de communes pays d'Évian – vallée d'Abondance (CCPEVA) will become the single water system operator throughout the 22 municipalities of the area. The CCPEVA services will undertake water supply and distribution, 24h a day and 7 days a week. The CCPEVA will be your single contact for any question relating to drinking water supply.

Why is the water service being transferred ?

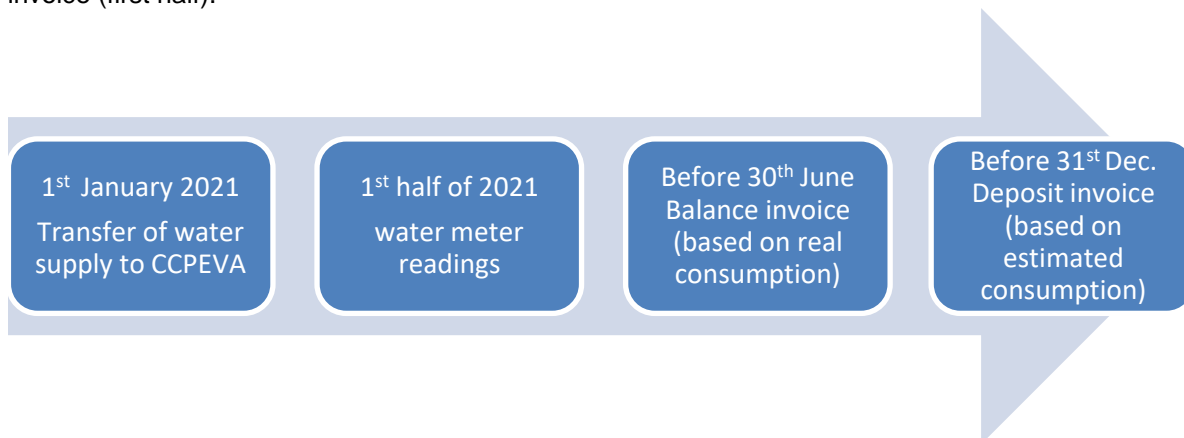

This major change in the territorial organisation is due to the new territorial legislation (Nouvelle organisation Territoriale de la République – law from 2015). This change has been prepared for two years with municipal and intermunicipal services and elected representatives, in order to ensure the continuity of public water supply.

The issues : preserve sustainable water resources and guarantee fair access to the inhabitants from the 22 area municipalities.

- **Water is a key resource issue of the future** : maintaining natural water resources and securing good quality drinking water are of particular relevance. It is part of the CCPEVA strategy of sustainable development.
- The CCPEVA intends to **improve the performance of the water network and reduce water leakages**. The CCPEVA will launch a program of works to optimize, repair and renew public water systems.
- **Solidarity** is the foundation of a community of municipalities. Investments on water systems are very expensive and some municipalities do not have enough financial resources. The CCPEVA will be able to support these investments to provide equal quality of drinking water systems to all.

What does it change on your bill ?

- CCPEVA will send you the water bill and you will pay it directly to CCPEVA.
- New ! CCPEVA offers you the possibility of paying the bill by the month, once you will receive the first bill in 2021.
- Water invoiced twice a year : a deposit invoice (at the end of second half of the year) and a balance invoice (first half).

What will be the impact on the drinking water price ?

- The prices from the 22 municipalities are very heterogeneous. CCPEVA is going to harmonize them within 4 years.
In 2024, the water price will be the same for all, at 1,40€/m³ including VAT.
- The water price in 2021 will be the same as in 2020.

	2021	2022	2023	2024
Fixed part (for diameter 15)	66,61 €	58,48 €	50,34 €	42,20 €
Variable part (price of m³, including VAT)	1,22 €	1,28 €	1,34 €	1,40 €
Annual invoice evolution for a 120 m³ consumption (estimated usage of a 3-persons household)	266,64 €	265,68 €	264,71 €	263,75 €
This represents an evolution of – 2,89 € by 2024				

Water prices evolution from 2021 to 2024

Your contact from 1st January 2021 ?

CCPEVA – 851 avenue des Rives du Léman – CS10084 – 74500 Publier

Schedule : 9h – 12h and 13h30 – 17h

Phone : 04 50 74 57 85 / or in case of emergency : 06 74 26 81 92

accueil.eau@cc-peva.fr / www.cc-peva.fr

Permanence at the office of Abondance (Les Granges) :

Every Tuesday by appointment.

CCPEVA services will do their best to ensure the transition and stay available to answer all your questions. We will build on the work already done by the municipality to maximize water systems efficiency.

We thank you for your attention and wish you the very best for the coming year.
Best regards

Josiane LEI
Présidente
